Register: ACTR
Last refreshed on: 11 September 2007
Main ID: ACTRN12607000456459
Date of registration: 11/09/2007
Primary sponsor: Istituto Rinaldi Fontani
Public title: Evaluation of the effectiveness of Neuro Psycho Physical Optimization with Conveyer of Modulating Radiance (CMR) in patients with stress-related pains and physical problems.
Scientific title: A Randomised controlled trial to evaluate the effectiveness of Neuro Psycho Physical Optimization (NPPO) with Conveyer of Modulating Radiance (CMR Therapy) in reducing the subjective perception of stress and stress-related pains and physical problems
Date of first enrolment: 1/01/2001
Target sample size: 900
Recruitment status: Completed

Key inclusion & exclusion criteria

Inclusion criteria: Subjects with Psychological Stress Measure Test positive for Pains and physical problems.

Exclusion criteria: Subjects taking major analgesic or suffering from organic or neoplastic pain or aged less than 18 years of age were excluded.

Age minimum: 18 Years

Age maximum:

Gender: Both males and females

Health Condition(s) or Problem(s) studied

Stress related pains and physical problems.

Intervention(s)

The intervention comprises: A cycle of Neuro Psycho Physical Optimization (NPPO) with Conveyer of Modulating Radiance (CMR therapy). The CMR is a biomedical radiofrequency instrument. The protocol used, called Neuro Psycho Physical Optimization (ONPF), involves the application of a probe of the CMR

on specific points of the auricular pavilion for an activation time of roughly 500 mms. The ONPF protocol is activated in a precise sequence on seven auricular points. The protocol envisages 18 sessions of ONPF treatment on alternating days, for eight (8) weeks. Assessment, at baseline and at the end of treatment, with Psychological Stress Measure Test (validated in Italian).

Primary Outcome(s)

To test with Psychological Stress Measure if the use of the Conveyor of Modulating Radiance (CMR) - is effective in reducing the subjective perception of stress, pains and physical problems stress related.

Secondary Outcome(s)

Wellbeing - Neuro Psycho Physical Optimization
